OUR STORY

Although I'm a one-woman business, I say "our" story because, if you order cupcakes from me, it is as much your story as it is mine.

Cara's Cupcakes for Change was founded in 2020 in response to George Floyd's murder. The events of that year were so grim, and so many people were suffering. As a freelance theatre director, quarantined with my family and out of work myself, I struggled to figure out the next steps in my own career.

But the continued racism, the advent of Black Lives Matters, the havoc of COVID-19, and the relentless news of people in need, inspired me to find some small way to bring a little sweetness, joy, and beauty into the world.

And so, I started baking, and donating a portion of the proceeds from every order to various charities, including the Marsha P. Johnson Institute, Everytown for Gun Safety, Hope for Ukraine, and Beagle Rescue Education and Welfare (BREW), just to name a few.

♥Thank you for supporting my small business, and the charities we support together. ♥
